

Community Health Improvement

EDUCATION OFFERINGS

Community Health Improvement transforms health outcomes by serving as a proactive, and collaborative catalyst to improve health across the life span. Meeting people where they live, work, play and pray we focus efforts through a health equity lens finding innovative solutions to barriers for improving the health of the communities we serve. Our skilled teams offer a series of educational resources to advance the community's health. Follow the QR code or link below to connect with us and let us know how we can be of assistance.

Community Health Needs Assessment (CHNA)

Our Community Health Improvement Data/Analytics Team leads the Community Health Needs Assessment initiative which identifies our key priority areas that is accessible and available to our community partners at <https://bit.ly/CHNAAssessment>.

Sexual Assault Nurse Examiner (SANE)

The Texas Health SANE program is bringing transformative change to the North Texas area by improving the medical forensic outcome of patients presenting for medical services after experiencing sexual assault. This program provides community education and prevention services to communities across the North Texas 16-county service area.

TOPICS INCLUDE:

- Child Abuse and Reporting
- Human Trafficking
- Law Enforcement Training
- Interpersonal relationships for all age groups
- Safe Dating
- Sexual Harassment
- Cyberbullying
